Chicago,IL | +1 (773)584-1333 | koduruvenu997@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SKILLS

- **Programming Languages:** VB.NET, C#, .NET, Typescript, HTML5, CSS3, Java, Python, C++.
- **Web Development Technologies:** React.js, Angular, TypeScript, Blazor, Razor Pages, JavaScript, XML, JSON
- **Database Technologies:** SQL Server, PostgreSQL, MongoDB, Azure SQL, CosmosDB, MySQL
- **Cloud Platforms:** Azure (Logic Apps, Functions, App Services, Key Vault), AWS (S3, CloudFront, ECS)
- **Tools & Methodologies:** Postman, SOAPUI, JIRA, Confluence, Agile/Scrum.
- **DevOps & Tools:** Docker, Kubernetes, Azure DevOps, Jenkins, Git, Terraform,
- **Architecture & Frameworks:** Microservices, RESTful APIs, ASP.NET Core, ASP.NET MVC, Web API, WPF, WCF

CERTIFICATIONS

Application Development Using Microservices and Serverless: [IBM Certified](#)

Microsoft Azure Developer Associate: [Microsoft Certified](#)

EXPERIENCE

Ingram Micro, *Software Engineer* | New York, NY, USA

Jan 2024 - Present

- Led full-stack development using **Angular, React, TypeScript, .NET, C#**, and **Entity Framework 6.0**, integrating **microservices** to enhance scalability by **25%**.
- Designed **RESTful APIs** and implemented **microservices-oriented architecture** to streamline integrations and improve **reliability** for high-volume business operations.
- Integrated **.NET Core** based back-end solutions, integrating **Azure Event Hubs** for real-time data streaming, and building notification services, improving message delivery speed by **40%** and enhancing user engagement.
- Architected **.NET microservices** on **Azure Kubernetes Service (AKS)** with **Azure DevOps CI/CD**, improving deployment efficiency and reducing errors by **30%**.
- Utilized **automated testing** using **NUnit and xUnit**, improving test coverage and **reducing QA time by 30%**, leading to more stable releases.
- Collaborated with cross-functional teams to integrate **Node.js** services and **Angular front-end modules**, enhancing system functionality and user experience, resulting in a **30%** reduction in response time for enterprise applications.

Cognizant, *Software Engineer* | Chennai, IN.

Sep 2021 - Jun 2022

- Migrated the Panda web app to **.NET Core** and **Azure microservices**, boosting scalability by 40% and maintenance by 50%.
- Designed and consumed **RESTful APIs** and enhanced UI functionality by building 30+ features with **React.js** and **TypeScript**, leading to a **25% increase in user engagement** and faster operations.
- Optimized database interactions and improved system performance by 30% through advanced **C#** queries with **.NET Core** and efficient ORM practices using **Entity Framework**.
- Deployed scalable Azure microservices using **Docker** and **Kubernetes**, improving reliability and streamlining **CI/CD** with Azure DevOps, reducing deployment errors by 30%.
- Secured authentication and authorization with **Azure AD, .NET Identity, and JWT**, reducing security vulnerabilities by 25% and enhancing application reliability.

Amrutha Infotech, *Software Engineer* | Bengaluru, IN

Sep 2019 - Aug 2021

- Constructed front-end screens with **React.js**, integrating **Redux, React Router, and ES6** to optimize client-server rendering, achieving a **30%** performance improvement.
- Programmed role-based access controls and user management features using **React.js** and **Node.js**, improving security and reducing unauthorized access incidents by 35%.
- Implemented cloud solutions on **AWS** with **Kubernetes, Docker**, and **AWS SDK** for bulk email processing, improving deployment efficiency by **40%**.
- Streamlined **CI/CD** pipelines with **Jenkins** and centralized logging using **Kibana** and **Elasticsearch**, reducing debugging time by **35%**.
- Built **RESTful APIs** with **Node.js** and **Express.js**, improving system integration and cutting response times by **20%**.

PROJECTS

Bookstore Web Application

- Developed a cloud-based bookstore using ASP.NET Core and Entity Framework, enabling seamless browsing, purchasing, and order tracking.
- Deployed the app on Azure with SQL Server integration, ensuring high availability and secure data management.

Heart Disease Detection System

- Built a machine learning model to predict heart disease based on patient data using classification algorithms (Logistic Regression, Random Forest, KNN).
- Achieved 92% model accuracy through data preprocessing, feature selection, and hyperparameter tuning.

Suburban Medical Group Web App

- Automated appointment scheduling using ASP.NET MVC, reducing administrative workload by 40% and improving operational efficiency.
- Optimized backend processes for faster patient data retrieval, enhancing system reliability and responsiveness.

EDUCATION

Governors State University, Master of Science in Computer Science

Aug 2022 - May 2024
